# MOONFALL TACTICS

• **Turn.** Score scenario VP; check victory. Each friendly poisoned unit takes 1 damage and removes 1 Poison. Choose a hero, capture AP/RAP, move its queue card to slot 0. All slots are usable.

• **Actions.** Recruits have 1 HP. AP pays for the active hero or Recruits; RAP only Recruits. Each hero action separately costs 1/2/3... AP; each Recruit shares one counter across paid actions. Respawn never resets costs.

• **Abilities.** Discard a matching assigned-element tactic and pay printed AP. Paid repeats cost +1 AP; card-only repeats stay card-only. Ongoing effects last until the next activation or defeat unless stated otherwise.

• **Movement.** Move up to printed allowance through empty legal hexes. Push/Pull changes distance from its fixed source each step. Resolve hazards on entry; stop on defeat. Nothing blocks sight.

• **Combat.** Alternate legal boosts or Pass; two passes roll. Cancel only the immediately preceding opponent combat tactic, including Cancel. A boost gives up the earlier cancellation chance.

• **Dice.** Highest die wins; compare six counts only when both maxima are 6; attacker wins ties. Zero pool: roll two, keep lower. Attacker may reroll own dice for 1 banked compensation PP each.

• **Shields / Pierce.** Shields reduce attack damage by 1 each. Pierce ignores Shields and discards Fortified without its bonus.

• **Damage.** Hit: 1 + kept attacker sixes after the first + Enraged + Heavy Attack + declared bonuses; apply Light Attack cap last. Winning defender gains Focus per kept six.

• **Position.** Melee: +1 die per qualifying adjacent ally. Ranged: -2 when engaged and -2 beyond normal range, up to double; penalties stack. Exact range never extends.

• **Statuses.** Focus: +1 Attack die; Enraged: +1 hit damage. Fortified/Dazed: +1/-1 Defense die. Spend participating stacks after the roll; new tokens survive. Healing restores HP and clears all Poison. A hero reduced from above 1 HP to exactly 1 gains Enraged.

• **Cards.** Shared 27-card deck with three elements or 36 with four. Start with 2 tactics; limit 8. Use printed effect OR matching ability payment. Reshuffle shared discards only when needed; no empty-hand refill.

• **Rewards.** Only heroes collect Moonstones: 1 tactic + 1 Focus. Hero defeat drops a stone, draws 1 tactic for its owner and moves its queue card to slot 0. Recruits do neither.

• **End turn.** Collect stones under friendly heroes; resolve overflow. Claim at most one eligible objective for 1 VP + 1 tactic. Eligibility starts next own turn. Draw an objective only if empty; never reshuffle. Resolve end effects and hazards; pass. Victory interrupts immediately.
